

Do You Feel Arthritis Pain With Every Step You Take?

You may qualify to participate in a research study testing an investigational topical pain medication for people with osteoarthritis of the knee.

To qualify, you must:

- Be 35 years old or older
- Have at least a 6 month history of arthritis of the knee
- Are currently taking pain medication for your knee pain
- Have not received injections in the knee over the last 3 months

All study related office visits, lab work, study procedures, and investigational medication are provided at no cost to participants. Qualified participants may be compensated for their time.
